

Paris, 13 January 2016

Omnes Capital signs up to Initiative Carbone 2020

Omnes Capital has joined the Initiative Carbone 2020 launched in November 2015 by Apax France, Ardian, Eurazeo, LBO France and PAI Partners.

This initiative is the first collective undertaking in the French private equity sector supporting responsible and transparent management of the greenhouse gas emissions of the companies in which they are shareholders. The iC20 signatories have decided to take action to contribute to the COP21 target of limiting global warming to 2 degrees Celsius.

This commitment fits in fully with Omnes Capital's strategy as a responsible investor, keen to factor environment, social and governance (ESG) issues into its investment processes and how it works with its investment holdings.

Martine Sessin-Caracci, Managing Director, Head of Investor Relations, comments: *"At Omnes, we firmly believe that taking non-financial criteria into account is essential in order to create value over the long term. The Initiative Carbone 2020 is the natural extension of the commitments we have made in terms of ESG, particularly as regards the environmental impact of our investments. In 2006, Omnes was also the first investment management company to launch a private equity fund dedicated entirely to renewable energy."*

About Omnes Capital
